- Stop working on minimal components of visualizations

----- ACTIONS TO START DOING -----

- Update Trello more often with accurate updates
- Group programming sessions (via discord)
- Daily messages on slack
- Communicate more often
- Identify and focus on high priority works such as storytelling

----- ACTIONS TO KEEP DOING -----

- Keep discussing on how we should best convey to our audience about climate change
- Continue trialing website with friends/family/etc
- Keep current meetings times

----- WORK COMPLETED / NOT COMPLETED -----

Incompleted: User Story 1: 10 / 11

- As a user, I want to be able to view top 5/bottom 5 values based on both total amounts as well as percentile amounts.
 - All visuals show top/bottom. Temperature doesn't since it's not needed for a single country

Completed: User Story 2: 6/6

- As a Developer, I want to move all visual elements & associated features to a single SVG
 - All html and visual elements are within the svg, preventing resizing issues

Completed: User Story 3: **9/10**

- As a user, I want to see a legend to understand scaling for each visual
 - Co2 and choropleths have legends. Temperature and energy do not need legends

Completed: User Story 4: **14 / 17**

- As a user, I want to see web pages that visually appealing and relevant to climate change, so that I want to stay and explore.
 - Home page isn't completed yet. Missing introduction and explanation

Completed: User Story 5: **3/12**

- As a user, I want to see prediction data to understand where global warming is headed
 - Missing predictive data for temperature, energy, sea level

Completed: User Story 6: /12

- As a user, I want to see matching header data tracking for each visual

- Backlog to focus on higher priority items
