

----- SPRINT 2 REPORT -----

Product Name: Data Visualization Climate Change

Team Name: VICC

Sprint Completion Date: April 18, 2018

----- ACTIONS TO STOP DOING -----

- Stop being absent or late to meetings
- Stop working on minimal components of visualizations

----- ACTIONS TO START DOING -----

- Update Trello more often with accurate updates
- Group programming sessions (via discord)
- Daily messages on slack
- Communicate more often
- Identify and focus on high priority works such as storytelling

----- ACTIONS TO KEEP DOING -----

- Keep discussing on how we should best convey to our audience about climate change
- Continue trialing website with friends/family/etc
- Keep current meetings times

----- WORK COMPLETED / NOT COMPLETED -----

Incompleted: User Story 1: 7 / 10

- As a user, I want to be able to adjust the CO2 and temperature visualizations to view the difference between the years, so I can better see how the countries' temperature changed over time.
 - Finished for CO2, but not for temperature

Completed: User Story 2: 4 / 14

- As a user, I want to see web pages that visually appealing and relevant to climate change, so that I want to stay and explore.
 - We each have some basic story for our visuals

Completed: User Story 3: 3 / 11

- As a user, I want to see nice bug free and improved visuals.
 - Fixed many bugs and improved all our visuals

Completed: User Story 4: 1 / 6

- *As a developer, I want to parse and generate prediction visuals from prediction data.*
 - *Have data for CO2, but not for others*

Completed: User Story 5: 9 / 9

- As a developer, I want to synchronize visuals to use the same slider
 - All cases finished

Completed: User Story 6: 0 / 7

- As a developer, I want to integrate co2 bubbles onto the choropleth
 - Backlog to focus on higher priority items

----- WORK COMPLETION RATE -----

Total User Stories Completed: 1 / 6

Total Hours Completed: 24 / 57
